Quinella Place (QPL)

Horse No.	Quinella Place (QPL)
6 + 7	Pick any two of the first three horses <u>in any order</u>
6 + 9	
7 + 9	

Bet tactics for Quinella and Quinella Place

Picking more than 2 horses can enhance the chance of winning.

2 common tactics...

Banker:

When you think one of your favourite horses has a higher chance of winning.

Multiple:

When you think your favourite horses have an equal chance of winning.

Banker

A common way of placing a banker bet:
1 banker and 3 other selections.

Banker must appear in all possible combinations.

Example:
No. 8 as banker and No. 2, 5, 11 as other selections.

Real Case Example

28/03/2018 Happy Valley Race 7

Customer A thinks that BOLD STITCH (No. 5) has a high chance of winning because he won in the last 2 races over the same trip. Furthermore, he has an advantage to start at Draw 2. Therefore, Customer A selects this horse as banker.

Also, INFINITY ENDEAVOUR (No. 2), SUPER LEADER (No. 8) and SPRING WIN (No. 12) have a good chance of finishing in the first-2, as they are remaining runners in this race who won over the same trip this season.

Hence, he selects them as his other horses for the Quinella bet. Finally, INFINITY ENDEAVOUR won the race and BOLD STITCH ran second. Customer A collected the dividend.

Bet Type	Possible Combination(s)	Dividend (\$10 each bet)
Quinella	(2) + (5)	\$205.5
	(5) + (8)	-
	(5) + (12)	-
	Total 3 combinations	Total \$205.5

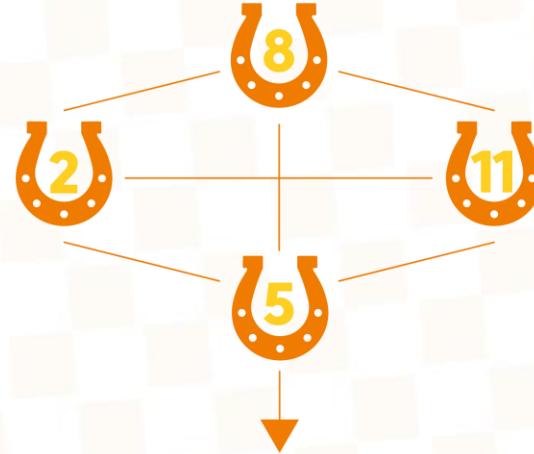

Multiple

A common way of placing a multiple bet:
Boxing 4 horses (total 6 combinations).

Selected horses are used to form all
possible combinations.

Example: Boxing No. 2, 5, 8, 11.

Total 6 combinations

- ① +
- ② +
- ③ +
- ④ +
- ⑤ +
- ⑥ +

Real Case Example

11/04/2018 Happy Valley Race 6

Only LUCKY GIRL (No. 2), PRETTY BAUHINIA (No. 5), LET'S TAKE IT EASY (No. 7) and SILVERFIELD (No. 11) finished in the first-3 over this trip in Class 3 race this season. Customer A thinks these 4 horses have an equal chance of winning.

Therefore, he bets on Quinella Place by multiple on the 4 selections. Finally, 3 of the 4 selections finished in the first-3 positions. Customer A collected the dividend.

Bet Type	Possible Combination(s)	Dividend (\$10 each bet)
Quinella Place	(2) + (5)	\$114.5
	(2) + (7)	\$77.5
	(2) + (11)	-
	(5) + (7)	\$36.5
	(5) + (11)	-
	(7) + (11)	-
	Total 6 combinations	Total \$228.5

3 Pick 1 (Composite Win)

The horses are put into 3 groups with reference to the overnight Win odds, the customers can collect a dividend when any runner from the chosen group wins.

Example:

Overnight Favourites (A1)	Overnight Mid-Pricers (A2)	Other Outsiders (A3)
		
The 1 st and 2 nd favourite horses with reference to the overnight Win odds	The 3 rd , 4 th and 5 th favourite horses with reference to the overnight Win odds	All horses other than those in the Overnight Favourites and Overnight Mid-Pricers with reference to the overnight Win odds
Odds 1.5	Odds 2.9	Odds 4.7

Why place a bet on 3 pick 1 (Composite Win), but not on Win directly?

Example (1): Select Overnight Favourites (A1),
28/02/2018 Sha Tin Race 8

This is a 1200M race at ST Dirt track. PICK NUMBER ONE (No. 4) and UGLY WARRIOR (No. 6) are undefeated over the same trip. Customer A thinks both horses are having good chance to win.

Since both horses are grouped as A1, so it is safer for him to bet on A1 than on either horse to win directly.

Finally, PICK NUMBER ONE won so Customer A collected the dividend.

3 Pick 1 (Composite Win)	Starters Included	Last odds
Overnight Favourites (A1):	🏆 (4) (6)	1.4
Overnight Mid- Pricers (A2):	(9) (10) (11)	3.7
Other Outsiders (A3):	(1) (2) (3) (5) (7) (8) (12)	4.5

Why place a bet on 3 pick 1 (Composite Win), but not on Win directly?

Example (2): Select Overnight Mid-Pricers (A2),
18/02/2018 Sha Tin Race 9

This is a 1800M race. Customer A thinks the favourite NOTHINGILIKEMORE (No. 1) has a risk of being defeated as he never ran over the same trip.

The horses most likely to beat NOTHINGILIKEMORE would be the horses of Overnight Mid-Pricers (A2), i.e. EXULTANT (No. 2), SINGAPORE SLING (No. 3) and RATTAN (No. 9).

Finally, SINGAPORE SLING won the race. Customer A collected the dividend.

3 Pick 1 (Composite Win)	Starters Included	Last odds
Overnight Favourites (A1):	(1)	1.8
Overnight Mid- Pricers (A2):	(2)  (3) (9)	2.2
Other Outsiders (A3):	(4) (5) (6) (7) (8) (10) (12) (13)	5

Why place a bet on 3 pick 1 (Composite Win), but not on Win directly?

Example (3): Select Other Outsiders (A3),
16/06/2018 Sha Tin Race 6

Customer A doesn't like any of the favourite horses. He thinks the result will be won by one of the outsiders, but it is difficult to pick one as there are so many outsiders. Therefore, he chooses to bet on A3.

Finally, JOYFUL MOMENTS (No. 7) won the race.
Customer A collected the dividend.

3 Pick 1 (Composite Win)	Starters Included	Last odds
Overnight Favourites (A1):	(2) (11)	1.8
Overnight Mid- Pricers (A2):	(3) (9) (10)	2.6
Other Outsiders (A3):	(1) (4) (5) (6)  (7) (8) (12)	3.6

Winning Trainer (Composite Win)

In group races, horses are assembled into three to four categories based on their respective trainers.

Customers can collect a dividend if any runner from their chosen trainer wins.

Example:

 John Moore (B1)	 Tony Cruz (B2)	 Richard Gibson (B3)	 Others (B4)
			
Odds 1.9	Odds 2.7	Odds 4.6	Odds 8.2

Winning Region (Composite Win)

In international races, horses are assembled into three to four groups based on their representing regions.

Customers can collect a dividend if any runner from their chosen region wins.

Example:

 Hong Kong (C1)	 Japan (C2)	 Europe – UK, France (C3)	Others (C4)
			
Odds 1.5	Odds 2.8	Odds 7.4	Odds 22

Exotic Bets (Single-race)

Trio / Tierce

Trio

Pick the first three horses

Tierce

In any order

Example :

6 - 7 - 9

In correct order

Example :

9 ▶ 7 ▶ 6

First 4 / Quartet

First 4

Quartet

Pick the first four horses

In any order

In correct order

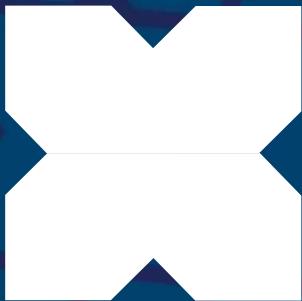

Example :

1 - 3 - 8 - 9

Example :

3 ▶ 9 ▶ 8 ▶ 1

Exotic Bets (Multi-race)

Double Trio

Pick the first three horses in any order in each of the two nominated races.

Example: Race 3 **6 - 7 - 9** + Race 4 **1 - 3 - 8**

Race 3

Race 4

Triple Trio

Pick the first three horses in any order in each of the three nominated races.

Example: Race 4 **6 - 7 - 9** + Race 5 **1 - 3 - 8** + Race 6 **2 - 5 - 12**

Triple Trio (Consolation): A consolation dividend is paid if the customer correctly picks the first three horses in the first two legs of the three nominated races.

Example: Race 4 **6 - 7 - 9** + Race 5 **1 - 3 - 8**

Race 4

Race 5

Race 6

Double

Pick the winner in each of the two nominated races.

Example: Race 6 2 + Race 7 3

Double (Consolation): A consolation dividend is paid if the customer picks the winner in the first nominated race, and the runner-up in the second nominated race.

Example: Race 6 2 + Race 7 8

Race 6

Race 7

Treble

Available in the last 3 races of each race meeting.

Pick the winner in each of the three nominated races.

Example: Race 8 7 + Race 9 9 + Race 10 8

Treble (Consolation): A consolation dividend is paid if the customer picks the winner of the first two nominated races and the runner-up in the last nominated race.

Example: Race 8 7 + Race 9 9 + Race 10 5

Race 8

Race 9

Race 10

Six Up

Available in the last 6 races of each race meeting.

Pick the 1st or 2nd horse in each of the six nominated races.

Example: Race 5 7 or 3 + Race 6 9 or 11 + Race 7 8 or 5 +
Race 8 6 or 2 + Race 9 7 or 4 + Race 10 2 or 9

Six Win Bonus: Pick the winner in each of the six nominated races.

Example: Race 5 7 + Race 6 9 + Race 7 8 + Race 8 6 + Race 9 7 + Race 10 2

Race 5

Race 6

Race 7

Race 9

Race 8

Race 10

Jockey Challenge

Jockeys earn Jockey Challenge points if they finish first, second or third in races.

Customers can collect a dividend when the selected jockey earns the most Jockey Challenge Points at a race meeting.

Jockey Challenge is a fixed odds bet. The dividend is calculated according to the odds fixed at the time the bet is accepted.

(4 Points)

All Up

What is All Up?

All Up means placing bets on more than 1 race. Any dividend entitlement from a winning race will be automatically carried forward and reinvested in the subsequent race specified in the bet selection.

Example: All Up 3 x 1 Win

Customers can select the same or different betting pools for All Up.

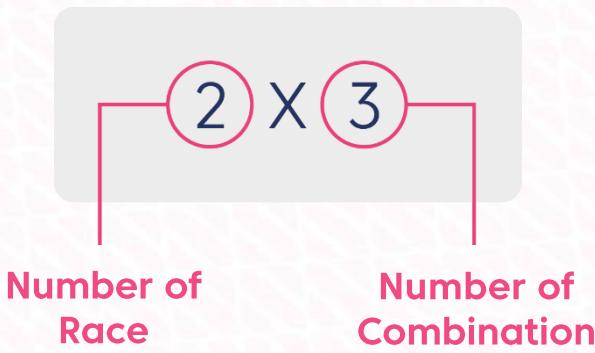

Common All Up Betting Pools: Win, Place, Quinella, Quinella Place and 3 Pick 1 (Composite Win).

All Up Formula

Choose the All Up Formula and number of combinations for 2 - 6 races.

Example: 2 X 3

Race 8 16:35

Single-race Multi-race All Up

Frequently Used Formulas Other All Up

Win	2X1	2X3	3X7	All Up / Cross Pool All Up
Place	2X1	2X3	3X7	
Quinella	2X1	2X3	3X7	
Quinella Place	2X1	2X3	3X7	
3 Pick 1 (Composite Win)	2X1	3X1	3X4

Last Update 09/07/2017 16:05

Common All Up Formula

All Up Example (1): 2 X 3

2 X 3 means choosing 2 races with 3 combinations.

Combination	Race 3	Race 5	Unit Bet
1	 Single Race		\$10
2		 Single Race	\$10
3		 + All Up	\$10

Unit Bet: \$10
Total Bet: \$30

Benefit: Since All Up 2 x 3 consists of two bets on a single race, customers can collect a dividend if they are eligible for the bet dividend in either of the two races.

Real Case Example

29/04/2018 Sha Tin Race 8 and Race 10

All Up 2 X 3 Win: Unit Bet \$10, Total Bet \$30

Combination	Race 8	Race 10	Win odds	Bet amount	Dividend#
1	PAKISTAN STAR		4.85	\$10	\$48.5
2		RISE HIGH	5.8	\$10	\$58
3	PAKISTAN STAR +	RISE HIGH	28.13 (4.85 X 5.8)	\$10	\$281.5
			Total Bet	\$30	
			Total Dividend		\$388
			Net Profit		\$358

The dividend is rounded-up or rounded-down to the nearest 50 cents.

All Up Example (2): 3 X 4

3 X 4 means choosing 3 races with 4 combinations.

Combination	Race 3	Race 5	Race 6	Unit bet		
1		+	 All Up	\$10		
2			+	 All Up	\$10	
3			+	 All Up	\$10	
4		+	 +  All Up	\$10		

Unit bet: \$10
Total bet: \$40

All Up 3 x 4 does not consist of bets on single races, which is different to All Up 2 x 3. Customers can collect a dividend if they are eligible to the bet dividend in any two of the three races.

Benefit: Selecting more races in an All Up bet will mean a higher "multiplying effect" in the odds. The dividend will, therefore, be more attractive.

Real Case Example

29/04/2018 Sha Tin Race 5, Race 8 and Race 10

All Up 3 X 4 Cross Pool Betting on Win/Place: Unit Bet \$10, Total Bet \$40

Combination	Race 5	Race 8	Race 10	Odds	Bet amount	Dividend#
1	SOLAR PATCH (Place)	+ PAKISTAN STAR (Win)		9.94 (2.05 x 4.85)	\$10	\$99.5
2	SOLAR PATCH (Place)		+ RISE HIGH (Win)	11.89 (2.05 x 5.8)	\$10	\$119
3		PAKISTAN STAR (Win)	+ RISE HIGH (Win)	28.13 (4.85 x 5.8)	\$10	\$281.5
4	SOLAR PATCH (Place)	+ PAKISTAN STAR (Win)	+ RISE HIGH (Win)	57.67 (2.05 x 4.85 x 5.8)	\$10	\$576.5
				Total Bet	\$40	
				Total Dividend		\$1076.5
				Net Profit		\$1036.5

The dividend is rounded-up or rounded-down to the nearest 50 cents.
